VENDORS INDEX

ARMITAGE, EG (PENS: 130,195-197)

LONGING

271-283, 411-415

Long Ing Farm, Dial Wood, Flockton

The herd is vaccinated for IBR & BVD and all the animals in the herd are BVD Tag Tested. Johnes testing is performed each quarter and the herd is regarded as low risk. Dry cows are vaccinated with Rotavec. The farm is in a four year TB testing area and there has never been TB within the herd.

CALLYMAINS FARMING LTD (PENS: 173-177)

311-341

Cally Mains Farm, Gatehouse of Fleet, Castle Douglas

The herd is closed and is vaccinated for IBR and BVD. All animals are BVD Tag tested. Johnes testing is done each quarter and all the dams of the heifers selling have tested negative. This is a low risk Johnes herd.

The herd has a strict health policy in place, with a focus on maintaining a healthy environment for cows, youngstock and calves, and work closely with vets to minimise antibiotic usage. They run a closed herd, with a weekly veterinary visit to monitor herd fertility and monthly health monitoring by their nutritionist. The farm is in a four year TB testing area and there has never been TB within the herd.

COWHILL TRUST T/A KERRICKS FARM (PENS: 166-172,158-160,162,163) KERRICKS

201-208, 231 – 246, 342-382

Kerricks Farm, Duncow, Dumfries

The herd is vaccinated for IBR, BVD and everything is BVD Tag tested. Johnes testing done each quarter and all the dams of the heifers selling have been tested clear. Calves are removed at birth and receive the dams colostrum for 2 feeds and then move onto high quality powered milk. The farm is in a four year TB testing area and there has never been TB within the herd.

EAST LOGAN LTD (PENS: 137,139,141)

LOGAN

209-223

East Logan, Castle Douglas

The cows are vaccinated for IBR, BVD and Salmonella. The are BVD Tag tested. Johnes testing is done each quarter via milk sampling and all the cows are negative. The farm is in a four-year TB testing area and there has never been TB within the herd.

HARVEY, R & M (PENS: 124,126,190,191)

NETHERKEIR

290 – 300, 416-426

Netherkeir, Auldgirth, Dumfries

The herd is vaccinated or IBR and BVD. All the animals on the farm are BVD Tag tested and Johnes tested is done each quarter via milk samples. The farm is in a four year TB testing area and the last herd TB test was in April 2024.

JARDINE, A & S (PEN: 189)

301-307

New Farm, Beattock, Moffat

The herd is tested free of IBR, BVD and Lepto. Johnes testing is done each quarter via milk sampling and the herd is clear of Johnes. The farm is in a four year TB testing area and there has never been TB within the herd.

KINGSBECK LTD (PENS: 127-129,145,147,149,180-184) KINGSBECK

247 – 270, 383-399

Culter Allers, Biggar, Lanarkshire

The milking herd is monitored for IBR, BVD and Lepto and all the animals within the herd are BVD Tag tested. Johnes testing is done four times a year and all the dams of the heifers selling are tested clear. Calves are removed at birth and all colostrum is tested for quality. The herd is in a four year TB testing area and their has never been TB within the herd.

KIRVENNIE FARMING CO (PENS: 101,103,105,107,144,146)

400 – 410, 431-475

Kirvennie Farm, Wigtown, Newton Stewart

The heifers selling are all BVD Tag Tested and vaccinated with Bovilis Intranasal. All calves are removed at birth and fed tested colostrum. Johnes testing is performed each quarter and any positive cows are culled. Currently there are only 'J'O's within the herd and the Kirvinne herd is regarded as low risk. The farm is in a four year TB testing area and there has never been TB within the herd.

OWEN T & C (PEN: 161)

POTSTOWN

229, 230

Potstown Farm, Middlebie, Lockerbie

The herd is vaccinated for IBR & Salmonella. All the animals are BVD Tag tested and Johnes tested clear. The farm is in a four year TB testing area and there has never been TB within the herd.

THOMPSON, N (PENS: 102,104,188)

Yew Tree Farm, Fenton, How Mill, Brampton

FENLEA**308-310,427-431****WATSON & SON, J & I (PEN: 192)**

Moorhouse Farm, Moorhouse, Wigton, Cumbria

MOORHOUSE**224 – 228,284-289**

The herd has been closed for the past 13 years and is vaccinated for IBR and BVD. All animals born in 2024 are BVD Tag tested. The in calf heifers have been vaccinated with Rotavec. Johnes testing is done each quarter and all the dams of the heifers selling have tested negative. This is a low risk Johnes herd. All calves are removed at birth and fed tested colostrum. The farm is in a four year TB testing area and there has never been TB within the herd.

METHOD OF SALE

All animals will be sold in guineas (105 pence) and in catalogue order, unless announced by the Auctioneer.

CONDITIONS OF SALE

The sale will be held subject to the Auction Sale Rules of Holstein UK and the Auctioneers General Terms and Conditions of Sale, both available on request.

TERMS

All purchasers please note that accounts must be settled at the close of the sale

ONLINE BIDDING

Is available through Marteye.

COWS & HEIFERS IN MILK

LOTS 201 – 230

KERRICKS FOREWORD

The Cowhill Trust pedigree Jersey herd was established in the autumn of 2017 with the import of 440 Danish heifers. This was a wonderful foundation for what has quickly become one of the UK's top producing Jersey herds.

Currently the herd is averaging 7886kgs at 6.16% butterfat and 4.09% protein with an average cell count of 119, at the latest milk recording the herd was averaging 28.2kgs per cow. Genetics and good management are the key to the successes that have been achieved at Kerricks Farm by manager Scott McGill who has a clear goal to average 1000kgs of combined butterfat and protein per cow within the next ten years.

The herd block calves with 50% calving for three months in the autumn from August onwards and the remaining calves in the spring over the same time period starting in February. The cows are fully housed until being confirmed in calf. Then they are grazed on a rotational grazing system until drying off

USA genetics have had a massive impact on the herd. The first bulls used in 2017 were Wilsonview If Mat and Oaklane Dazzle Disco, they were both udder specialists and well as adding production. Other bulls that have had positive impacts are Rivervalley Victorious, Cloverpatch Dazzler Perry, Rivervalley Circus Craze and Sexing Huxford.

Herd Health

The herd is vaccinated for IBR, BVD and everything is BVD Tag tested. Johnes testing done each quarter and all the dams of the heifers selling have been tested clear. Calves are removed at birth and receive the dams colostrum for 2 feeds and then move onto high quality powered milk. The farm is in a four year TB testing area and there has never been TB within the herd.

LOGAN FOREWARD

East Logan Farm has been the home of the Logan herd now for the past 50 years and is owned by the Yates family. Famous for their Pedigree Holstein herd that was founded on USA and Canadian bloodlines the herd has won many accolades over the years winning National and Reginal Shows has become the norm. The Logan herd has twice been runner up in the Gold Cup as well as being winner of several herd competitions over the years.

A few select Jerseys were added to this prize-winning herd a few years ago, these special individuals have been very successful for the Logan herd both from a production standpoint and in the showring. With numbers of Jerseys now growing rapidly Brian and Michael have decided to sell this special group of well bred Jerseys.

Herd Health

The cows are vaccinated for IBR , BVD and Salmonella. They are BVD Tag tested. Johnes testing is done each quarter via milk sampling and all the cows are negative. The farm is in a four-year TB testing area and there has never been TB within the herd.

MOORHOUSE FOREWARD

The Moorhouse herd is owned by the Watson family who farm near the town of Wigton in Cumbria. This is a mixed of Holstein and Jerseys managed on a Lely Robotic milking system.

The Jersey herd is currently averaging 9893kgs at 4.93% butterfat and 4.01% protein. The have been using the World Wide Sires mating programme for 15 years and are selling this special group due to stock numbers increasing.

Herd Health

The herd has been closed for the past 13 years and is vaccinated for IBR and BVD. All animals born in 2024 are BVD Tag tested. The in calf heifers have been vaccinated with Rotavec. Johnes testing is done each quarter and all the dams of the heifers selling have tested negative. This is a low rick Johnes herd. All calves are removed at birth and fed tested colostrum. The farm is in a four year TB testing area and there has never been TB within the herd.

POTSTOWN FOREWARD

Potstown, near Lockerbie on the Scottish border, is owned and managed by brothers, Gareth and David Owen, along with their father Tom. The family first moved to the farm in 1988 and have been gradually growing the size of both the herd and the farm since. They have recently changed half the herd to Jersey and run a robotic milking system

In 2020, the family decided to change half the herd to Jersey cows and today cow numbers at 255 and almost 340 followers. Yields are now at 9,000 litres at 4.80% butterfat on a Lely Robotic milking system.

Bull selection is done on a mainly PLI basis although milk yield, butterfat percentage, type merit, legs and feet and fertility are used as well along with teat length and placement for robotic milking.

Herd Health

The herd is vaccinated for IBR & Salmonella. All the animals are BVD Tag tested and Johnes tested clear. The farm is in a four year TB testing area and there has never been TB within the herd.

KINGSBECK FOREWARD

The award-winning Kingsbeck pedigree Jersey herd was established in 2016 by Jon McCosh. In a short space of time the Kingsbeck herd has built up a strong reputation for breeding a modern, super efficient cow that produces large volumes of milk. Recently they were awarded the Lilyhill Cup this trophy is awarded to the Gold Cup qualifying Jersey herd with the highest combined fat and protein yield.

Currently this impressive herd of 200 cows are averaging 816kg of milk solids per cow! The herd is managed in a Lely Robotic milking system in Coulter, Lanarkshire with the milk going to Graham's The Family Dairy.

The foundation of the herd was from a select group of Danish heifers and since then the best genetics from USA and Canada have been used to improve type and production.

Herd health

The milking herd is monitored for IBR, BVD and Lepto and all the animals within the herd are BVD Tag tested. Johnes testing is done four times a year and all the dams of the heifers selling are tested clear. Calves are removed at birth and all colostrum is tested for quality. The herd is in a four year TB testing area and their has never been TB within the herd.

LONGING FOREWARD

Graham Armitage and family run the Longing Pedigree Jersey herd near Flockton in West Yorkshire. They established this impressive herd in 2008 when they selected the very best Jerseys from Jersey Island from several of the leading herds including; the Elite herd from the Le Feuvre family, the Ansom herd from the Perchard family and the Chalet herd from the Leith family.

Since 2008 Graham has developed these families using top International AI sires, while running

well bred bulls by proven and genomic sires bred from the well established female lines

due to ease of management with serving heifers. Currently the herd is averaging 6120kgs at 5.5% butterfat an 4.01% protein. It's clear to see the impressive longevity and stability within this top herd when you read through these pedigrees.

Herd Health

The herd is vaccinated for IBR & BVD and all the animals in the herd are BVD Tag Tested. Johnes testing is performed each quarter and the herd is regarded as low risk. Dry cows are vaccinated with Rotavec. The farm is in a four year TB testing are and there has never been TB within the herd.

NETHERKEIR FOREWARD

The Netherkeir is predominantly a Jersey herd with a small group of HoJo animals. They are managed on a Lely Robits milking system with the current herd average running at just over 8000kgs at 5.1% butterfat and 4.01% protein.

Herd Health

The herd is vaccinated or IBR and BVD. All the animals on the farm are BVD Tag tested and Johnes tested is done each quarter via milk samples. The farm is in a four year TB testing area and the last herd TB test was in April 2024.

APPLEGARTH FOREWARD

The Applegarth Jerrey herd was established three years ago by Abdrew and Suzanne Jardine who farm near Moffat. They are new entrants into farming and have quickly established an impressive and productive Jersey herd.

The foundation of the 105 Jersey herd was 50 heifers imported from Denmark with the remaining 50 coming from the Winkland herd in Kent. They have been a wonderful success and are currently averaging 7373kgs at 5.78% butterfat and 4.16% protein with half the milk produced from homegrown forages.

The herd uses the World Wide Sires Mating Programme along with some sexed semen purchased from Cogent. This is the first time Andrew & Suzanne have sold breeding stock from their Applegarth herd.

Herd Health

The herd is tested free of IBR, BVD and Lepto. Johnes testing is done each quarter via milk sampling and the herd is clear of Johnes. The farm is in a four year TB testing area and there has never been TB within the herd.

BULLING HEIFERS

LOTS 300 – 430

CALLYMAINS FOREWARD

The Cally Mains Farm is situated in Gatehouse of Fleet and is a family business run by Allan, Janice and Robin Campbell. Together they milk 500 cows, bringing on 350 plus youngstock. This is a mixed of Holstein and some Jerseys, are housed indoors and milked three times a day.

The Jersey herd is currently averaging 7608kgs at 6.09% butterfat and 4.09% protein and this is a complete dispersal of all the Jersey youngstock within the herd. The herd was a Finalist in the 2022 Scottish Dairy Farm of the Year and this year several of the individuals within the herd featured at the top of the Scottish National Milk Records Competition with their best cow Number 583 producing 9319kgs at 6.26% butterfat and 4.20% protein a combined butterfat and protein of 974kgs!

This dispersal group is top quality and are all sired by exceptional sires including; Peak AltaMaximite, Alta Saban, Alta Zidane, VJ Hanulau & VJ Giant Giga.

Herd Health

The herd is closed and is vaccinated for IBR and BVD. All animals are BVD Tag tested. Johnes testing is done each quarter and all the dams of the heifers selling have tested negative. This is a low risk Johnes herd. The herd has a strict health policy in place, with a focus on maintaining a healthy environment for cows, youngstock and calves, and work closely with vets to minimise antibiotic usage. They run a closed herd, with a weekly veterinary visit to monitor herd fertility and monthly health monitoring by their nutritionist. The farm is in a four year TB testing area and there has never been TB within the herd.

KIRVENNIE FOREWARD

Kirvennie Farm is just outside the town of Wigtown in Dumfries & Galloway and is a family farming business milking 350 Jersey cows owned by Graham Armstrong. The herd calves in the spring and is grazed on a New Zealand style paddock system.

In recent years Graham had embraced many new technologies to improve the herd. Cow Manager technology is used for health and activity monitoring and graham is also one of the driving forces behind the development of a genomic index specifically designed for UK grazing systems. Genomic selection has and will continue to be one of the main tools in the genetic improvement of the herd.

The production system at Kirvennie is low input and this is reflected in the production data. However the speaking from experience from animals we have sold in the past these have the potential to produce large volume of milk if encouraged to do so.

All the heifers selling in this well bred group are sire by sires with impressive genomic proofs including; VJ Balslev Lobo Choko, VJ Kivirannan Funfer Festivo, VJ Granselelund Hakon Hakvin,3stars Oh Lars and VJ Fanof P Fuzzy.

Herd Health

The heifers selling are all BVD Tag Tested and vaccinated with Bovilis Intranasal. All calves are removed at birth and fed tested colostrum. Johnes testing is performed each quarter and any positive cows are culled. Currently there are only 'J'O's within the herd and the Kirvinne herd is regarded as low risk. The farm is in a four year TB testing area and there has never been TB within the herd.

HEALTH AND SAFETY RULES HARRISON & HETHERINGTON LIMITED NOTICE TO ALL VISITORS AND TRADERS PLEASE READ AND OBSERVE THE FOLLOWING

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
