VET'S FOREWORD

It is with a mix of emotions that I write this foreword. Sadness that one of the best herds in the practice are 'putting the cows off' and a sense of privilege that I have been able to provide veterinary care to the cows at Low Barledziew for the past thirty years. Looking back over those thirty years brings a rich tapestry of laughter and sadness, joy and tears. The 'original' herd was culled during the Foot and Mouth outbreak of 2001 and the sense of bereavement was felt not only at Low Barledziew but in the whole area. Restocking opened a new chapter at Low Barledziew and the Vance Family focussed on producing quiet, productive cattle of excellent type. I am sure that you will agree that the cows presented on the 2nd October fulfil all the criteria of a modern dairy cow.

The vital statistics of the herd stand as testament to the quality of the cattle and the dedication of the Vance family to look after their cows to the best of their ability. The cows always came first! The average yield of over 12,000l/cow is produced with excellent solids and a consistently low somatic cell count speaks for itself and requires no comment from me. Fertility is, perhaps, the key driver of efficient milk production and once again the figures require no 'spin' to be put on them. All AI'ing is done by the family and to achieve a conception rate of 51.3% is amongst the best achieved anywhere. A pregnancy rate of 28% is an excellent figure especially on a farm where there is no formal synchronisation plan and most services are off natural heats unless cows are identified as 'problem cows' at monthly visits.

The herd is BVD negative based on individual animal tag testing and has a very low prevalence of Johnes disease.

Youngstock are reared with care and diligence and become known as individual animals not just a number. Recent years have seen a decline in antibiotic usage and the incidence of calfhood disease is low because the focus is on good hygiene, nutrition and excellent colostrum management.

In short this is an excellent herd that has been a pleasure to work with. Full of productive cows who have a huge personality. As Howard, Marjorie and Emma move on to retirement and new ventures all of us at Priory Veterinary Centre wish them well and give our thanks for all the happy memories.

David Campion

Priory Veterinary Centre

AUCTIONEER'S FOREWORD

Introduction

The Barledziew Pedigree Holstein herd is a modern gem combining high production, superb fertility, excellent type and superb health traits. With almost 300 outstanding animals featuring in this premier dispersal sale it is a must attend event for milk producers and Holstein breeders.

Situated in the South West of Scotland near the town of Whithorn, Low Barledziew farm is blessed with an ability to grow high quality grass in a mild and often wet climate. The Vance family have built an impressive modern dairy enterprise, combining excellent stockmanship, attention to detail and progressive management practices to develop a herd that performs to a consistently high standard.

Arriving at the decision to disperse the Barledziew herd has taken much consideration for Howard, Marjorie and Emma. This herd has been at the heart of the Vance family and their farming business for many years, whilst difficult to part with a herd that has meant so much they will take great satisfaction in seeing the cattle offered for sale in this special catalogue and hope that you the buyers will find animals capable of making a valuable contribution to your own businesses.

Howard, Marjorie and Emma would like to thank everyone who has supported them over the years, including family, friends, staff, advisers and fellow farmers. Their help and encouragement have played an important part in the success of the herd.

The milking herd was first established in 1988 and was unfortunately lost in 2001 to FMD, due to a contiguous cull. Following a successful restocking in 2002 the herd was then registered as fully pedigree and additional cow families were introduced over the years. Emma joined the business in 2007 and with her vision and passion, the herd continued to develop and improve both in management and genetics. The first Lely robot was installed in 2015 and went fully robotic in 2018 with an additional two Lely Robots installed in the original dairy shed. This investment has enabled the Vance family to focus on cow health, welfare and performance, resulting in an exceptionally efficient and productive herd.

Herd Profile

This unique dispersal sale features 173 cows and heifers in milk comprising 37 heifers in milk, 60 second lactation, 40 third lactation, 15 fourth lactation and 21 having had five or more calves. This is an all year round calving herd. 51 are freshly calved in the last three months with 79 cows and heifers producing over 40kgs per day and a further 26 producing over 50kgs per day! If you are in the market for autumn and winter milk 32 cows are due to calve from October to December with an additional 15 In Calf heifers to calve in the same period. 35 cows and heifers are due in the spring of 2027 with an additional 17 In Calf heifers due in the same period.

Production and Management

The herd is currently averaging 12265kgs at 4.31% butterfat and 3.41% protein with an average somatic cell count of 125. The daily yield is currently 39.5kgs. (The milk recording data is taken directly from the Lely robots). Fertility has been one of the main focus points both from a management and genetics point of view. Currently the herd is averaging 176 days in milk. The Preg Rate is running at 28% and the overall Conception Rate is 51%. The service sires are either top end female sexed sires, British Blue or Aberdeen Angus.

The herd is managed in comfortable cubicles throughout the year and milked through three Lely A4 Robots. The TMR is grass silage, whole crop, caustic wheat, whey permeable and dairy blend. They are fed to yield through the robot.

The hoof management is excellent with routine herd trimming and foot bathing is carried out five times a week.

Genetics & Classifications

The herd is built on solid cow families carefully selected for their ability to produce large volumes of high quality milk over several lactations. They have been hand picked from the UK's best herds with foundation animals coming from the Woodmarsh, Feizor, Warnelview, Bocclair, Carnduff, Denmire, and Aytonian herds.

The classifications speak volumes and highlight just what an exceptional herd Barledziew is. In total there are 16 Excellent, 64 Very Good, and 67 Good Plus cows selling this includes 9 Very Good milking heifers and 23 Good Plus heifers in milk.

The herd came to prominence with a super special daughter of Picston Shottle, Barledziew Shottle Candy who was the first Shottle to classify Excellent 96. She became an amazing brood cow with 47 direct progeny selling from her in this special dispersal.

The front cover cow is Warnelview Crushabull Amy currently the highest classified daughter of Crushabull in the UK at 95 points. She sells along with her April daughter by Animation and a fancy VG88 Fuel daughter that calved in April giving almost 60kgs. (The Fuel daughter also features on the front cover)

Other top cow families include the: Dellia, Elegance, Ruby, Pledge, Adeen, Marie, Melody, Tamora and Aster lines. Throughout this catalogue buyers will find a herd bred with longevity, production and functionality in mind. The cattle represent years of careful selection and are a credit to the family who have developed them into one of the region's most respected dairy herds. The Vance family have taken great pride in developing a herd that combines strong production, fertility, functionality and excellent health traits and the sire selection reinforces this.

Youngstock

In total 111 youngstock sell. They include 51 in calf heifers; 15 are due in 2026 with 17 calving in the spring of 2027. 19 are short bred with service dates in July and August. The average age of calving is 24 months old.

18 strong bulling heifers sell all ready to breed and all sired by either Progenesis Lateshow, Pine-Tree-I Pursuit and Progenesis Kalahari.

One of the most attractive and exciting features of this sale is the 44 young heifer calves. They are exceptionally well grown for their age and display enormous potential. They are sired by Beyond Hi-Praise, Drouner K&L Chase and Mystique Animation

Twins Heifers Sell For Charity

The Vance family and many people from the rural community of Whithorn have benefited from the important service of the Dumfries and Galloway Blood bikes. Currently they are raising funds to buy a new bike for the vital service. Howard, Marjorie and Emma are kindly donating the proceeds from the sale of two special twins that trace back to the famous Barledziew Shottle Candy EX96. They are sired by Beyond Hi-Praise and bred from a Yamaska dam (Lots 137A & 137B)

Opportunity

This sale presents a genuine opportunity to purchase animals from a high-performing robotic milking herd operating under exemplary management conditions. Whether you are seeking productive milking cows, promising youngstock or genetics capable of enhancing any dairy business, the Barledziew offering is worthy of serious consideration.

We wish the Vance family every success for the future and sincerely thank them for entrusting Harrison & Hetherington with the marketing of this outstanding dispersal.

PRIORY

VETERINARY CENTRE

DEDICATED TO DAIRY HERD HEALTH & PERFORMANCE

Providing professional, practical veterinary services
to dairy farmers and livestock producers throughout the area.

**EXPERIENCED.
PRACTICAL.
INDEPENDENT.**

Your local practice
for healthy herds
and productive
farms.

DAIRY HERD HEALTH

Prevent, monitor
and improve
herd health

FERTILITY SERVICES

Fertility investigations
& reproductive
management

CALF & YOUNGSTOCK HEALTH

Healthy starts for
strong, productive
future cows

DISEASE PREVENTION & CONTROL

Herd health planning,
vaccination &
biosecurity support

ROUTINE HERD VETERINARY CARE

Regular herd work
to support
performance

FARM VISITS & EMERGENCY CARE

On-farm support
when you need
it most

PRIORY VETERINARY CENTRE

3 St John Street, Whithorn
Newton Stewart, DG8 8PD

01988 500356

**TRUSTED BY FARMERS.
COMMITTED TO YOUR HERD.**

Practical advice.
Proven results.
Stronger together.

Supporting dairy farmers **EVERY STEP OF THE WAY**

HEALTH AND SAFETY RULES HARRISON & HETHERINGTON LIMITED NOTICE TO ALL VISITORS AND TRADERS PLEASE READ AND OBSERVE THE FOLLOWING

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
