MAYO HEALTHCARE
Enhancing Animal Health

"We switched to the Mayo All Guard boluses several years ago and we have been delighted with the results. They are small, easy to administer and we really like the fact that they have zinc in them. We have definitely seen an improvement in our flocks hoof health since making the switch."

PLATINUM DRENCHES

Why use Platinum Drenches?

Our carefully designed and selected drenches are aimed at improving health and fertility in sheep and cattle of all ages.

- ✓ Improved fertility
- ✓ Increased growth rates
- ✓ Shorter lambing periods
- ✓ Increased vitality at birth

ADDITIONAL APPLICATIONS:

- ✓ Rams benefit from drenching one month before tupping
- ✓ Store lambs on roots, where conventional mineral is not practical
- ✓ As a stimulant to the immune system to aid recovery

Ewes and lambs should still be provided with minerals via powder or buckets, but the need for 'protected' trace elements is reduced. Bought-in stock should be treated on arrival. In situations of known deficiency, i.e. selenium, cobalt or copper, Platinum drenches will provide a rapid uptake and lasting effect via storage in the muscle tissue.

Information on all Biocell products is available by telephone or email.

We can also give you details of your local distributor or agent, and please visit our website where you will find much more detail about our products and services.
