AG BALMER, FOREST FARM, BROUGH, KIRKBY STEPHEN, CUMBRIA

The Balmer family have had a dairy herd at Forest Farm since 1974. At that time, replacements were bred using AI Friesian bulls. After a Ministry compulsory purchase in 1995, which meant a loss of land, and cubicle sheds which housed the young stock, the decision was made to move to a flying herd and the cubicles on farm were extended to accommodate up to 75 cows. Since then Beef bulls have been used on the herd and for the last 20 years the Charolais has produced excellent calves which have achieved great prices at the Carlisle sales. Now the time has come to gracefully retire from the dairy business and enjoy a little more free time.

Herd health

Herd is cubicle housed. Litterage last recorded on 14/06/21. Last bulk tank collection recorded: B/F 4.02 P 3.33 and SCC 179. Farm located in TB4 and last tested 18/03/21. Tested Johnes free herd 2020. All cows in calf to 100% Polled Charolais Bull (easy calving).
