Foreword

There are few opportunities in the Holstein breed to acquire Holstein cattle that successfully combine commercial efficiency, proven cow families, excellent functional type, and to top it all some of the highest genomic cattle available anywhere in Europe. The HighHopes & Halcyon Dispersal Sale presents exactly that opportunity.

When Richard and Claire Barber established HighHopes Holsteins, their ambition was straightforward but challenging: to build a herd of balanced, profitable cattle capable of thriving in a modern commercial environment while retaining the quality and pedigree strength for which the Holstein breed is renowned. Starting with modest beginnings and a clear vision, they have spent more than two decades carefully and consistently developing a herd that has earned widespread respect throughout the industry.

Their journey has been built on a philosophy of continual improvement. Through rigorous milk recording, classification, and a relentless focus on strong maternal lines, the Barber family created a breeding programme centred on production, longevity, fertility, and functionality. As the industry evolved, so too did their approach. They became early adopters of genomic testing, embryo transfer, and IVF technologies, embracing innovation while never losing sight of the importance of the cow behind the pedigree.

The commercial attributes of the herd are impressive! Currently the herd is averaging **9167kgs 4.80% 3.60% protein** they are grazed day and night and buffer fed prior to milking with the last milk recording prior to printing having the herd averaging **32.46kgs**. The winter ration is effective and simple with grass silage the main ingredient in the TMR with potatoes and carrots fed along with a dairy blend. The are cubicle housed and milked twice a day.

There are **39 cows and heifers recently calved in the last three months with a further 64 to calve in 2026 this includes 13 special in-calf heifers**. The best milkers are bred back to the best Holstein sires with the rest carrying valuable British Blue calves.

This is a super youthful All Year Round herd with **45 heifers in milk, 30 cows in their second, 21 cows in their third, 19 cows in their fourth** and 11 cows having had five or more lactations. They are built to be top performers with 4 Excellent, 33 Very Good, 40 Good Plus animals selling including 27 Good Plus milking two year olds!

It is worth highlighting some of the incredible opportunities! **Highhopes Thorson Louetta VG85 2YR** (Lot 70) sells. She calved in December and is giving 30kgs and is due again in February to Beyond HI-Pace sexed. This amazing young cow's genomic data is impressive! **GTPI+3145 NM+904 Milk+1017**. Her heifer calf sells Lot 70A) **Highhopes Harmony Louetta GTPI+3166**! There are many exciting opportunities such as this in this special catalogue.

The creation of Halcyon Genetics further accelerated that progress. Strategic investments in some of the world's leading cow families, coupled with careful sire selection and a willingness to embrace genomic technology, have delivered exceptional results. The influence of the Froukje family, led by Halcyon Missouri Froukje EX90-4yr 6*, has helped establish a herd that now competes at the highest levels of modern Holstein breeding with 30 members of this incredible line selling on the 30th July.

The achievements of the herd speak for themselves. Generations of cattle have delivered reliable performance in the milking herd whilst simultaneously achieving impressive classification results and producing offspring sought after by breeders both at home and abroad. The programme has consistently demonstrated that high genetic merit and commercial efficiency can successfully go hand in hand.

Perhaps the most remarkable feature of this dispersal is the sheer depth of genomic quality on offer. The sale includes over 40 animals testing in excess of 3200 GTPI, placing them amongst the elite ranks of Holstein genetics available anywhere in Europe today. This concentration of high-index cattle is the result of years of disciplined breeding decisions and provides buyers with an unrivalled opportunity to accelerate genetic progress within their own herds.

Chart Toppers sell! It's difficult to mention all the stars selling in this foreword, but consider the breeding potential in **Highhopes Ripcord Comet (Lot 130A)** – a February born daughter of Ripcord with a **GTPI+3378 Net Merit+1125 and Milk+1862 lbs.** Her dam is one of the early Thorson daughters who calves this summer and the grand dam is an early Captain daughter that recently classified VG87 in her second. A Zazzle sister to this Captain topped the Boghill Sale at 40,000gns in 2021. This chart topping heifer sells with global AI interest.

Whether your objective is to invest in elite genomic females, strengthen established cow families, breed the next generation of AI candidates, or simply purchase productive, efficient Holsteins with generations of performance behind them, this sale offers something genuinely special and something for every dairy farmer and every budget.

As one chapter closes for the Barber family, another begins for the purchasers of these outstanding cattle. Richard, Claire and their family can look back with immense pride on what they have achieved. Their dedication, vision and willingness to embrace innovation have created a herd that stands as a testament to modern Holstein breeding.

We congratulate the Barber family on their achievements and thank them for presenting such an exceptional offering to the industry. We encourage breeders from across the UK and beyond to take full advantage of this rare opportunity on Thursday 30th July and celebrate with the Barbers as they bring this chapter in their lives to a close.

PROTECT YOUR FARM AGAINST THE UNEXPECTED

Unexpected events can have a dramatic impact on the long-term stability and continuity of your farming business. What, for example, if you – or a key employee – suffer a serious illness or long-term injury? As the business owner, this could dramatically affect everything you've worked for.

What would happen if one of your co-owners in the business died and left their interest in the business to their family? You might want to be able to buy their share of the business from their family, but what if they don't want to sell? Or what if you don't have the available cash to buy, can't agree a price, or they want to sell to a third party?

It's important to plan, with a professional financial adviser, for these sorts of eventualities.

The type of cover and plan you need will depend on your individual circumstances, those of any co-owners and the nature of your business.

For example:

- If a key employee dies or suffers a specified critical illness, key person protection provides the business with a lump sum. This money can be used to offset the loss of profits and cover the costs of recruiting a replacement.
- If there is an outstanding loan, commercial mortgage or director's loan, a plan needs to be in place to protect the borrowing should one of the business owners die or suffer from a specified critical illness.
- If a co-owner dies or falls ill, life and critical illness insurances can provide the remaining partners with the funds to help buy their share of the business, protecting the remaining partners and the deceased or ill partner and their family.

Building a successful business requires an investment of time, effort and money. Financial advice from NFU Mutual can help you protect that success and build upon it.

NFU Mutual Financial Advisers advise on NFU Mutual products and selected products from specialist providers. They'll explain the advice services we offer and the charges. Financial advice is provided by NFU Mutual Select Investments Ltd.

LET'S START TALKING

To get things started, contact your local NFU Mutual Lancaster at Lancaster_agency@nfumutual.co.uk and we'll put you in touch with Maxine Wilkinson, your NFU Mutual Financial Adviser:

01524 34359 | Mannin Way, Lancaster Business Park, Lancaster, Lancashire, LA1 3SW

M A Earl, S A Rowlinson & S L Cross is an appointed representative of The National Farmers Union Mutual Insurance Society Limited (No. 111982). And an introducer to NFU Mutual Select Investments Limited, a member of the NFU Mutual group of companies.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
