RE: Veterinary comment regarding Rossiebank Farm

The Neill family at Rossiebank farm have worked closely with veterinarians from the University of Glasgow for the last 10 years. It has been our privilege to attend the farm on a weekly basis to conduct routine fertility management and herd health monitoring. Over the years, the herd has constantly improved in terms of management, production and welfare, reaching an exceptional health status, as highlighted by the recent performance.

The herd participates in regular milk recording carried out by the Cattle Information Service (CIS) and utilises farm management software (DairyComp 305<sup>®</sup>) to ensure accurate data recording. Herd performance data regarding fertility, health and productivity are reviewed and discussed on a monthly basis.

Fertility is extremely well managed, and cows are presented on a weekly basis for pregnancy diagnosis (PD), postpartum uterine health checks and enrolment onto a synchronisation programme as required. A 1<sup>st</sup> PD is performed at 28-35 post AI and this is confirmed in all cows with a 2<sup>nd</sup> PD 30 days later. All cows are examined at 30 days postpartum to monitor ovarian cyclicity and uterine health. Cows not displaying oestrus (NDO) are examined at 70 days postpartum and enrolled on an Ovsynch as required. Fertility performance of the herd is excellent with an average pregnancy rate (PR) of 27% and a conception rate (CR) over 40% in the last year (2022-2023). Additionally, all cows are examined and screened for uterine and metabolic disease at 1-7 days postpartum, with a low incidence of transition disease present.

Cows are routinely foot trimmed every 3 weeks and lameness is monitored regularly through mobility scoring and assessment of foot trimming records. The bulk tank somatic cell count is consistently below 200 cells/ml and clinical mastitis incidence is well on target (below 20 cases per 100 cows per year).

Rossiebank farm is a closed herd and follows a rigorous biosecurity protocol that is reviewed on an annual basis. This approach ensures that the herd maintains an exceptional level of protection against infectious diseases. The herd is Bovine Viral Diarrhoea (BVD) negative, and this status is maintained biannual serology screening of heifers (9-18 months old) in compliance with the Scottish BVD eradication scheme. The herd participates in the National Johne's Management Plan (NJMP) by completing a quarterly milk serology screen of 30 cows. The herd is from a low-risk TB area and was last tested clear on November 2019. Bulk milk screening for Leptospirosis and Salmonellosis is completed on an annual basis and is always negative. The herd is vaccinated against Bovine Respiratory Syncytial virus and Parainfluenza virus 3 (Bovalto RS+PI3<sup>®</sup>), Mannheimia haemolytica (Rispova Pasteurella<sup>®</sup>) and Infectious bovine rhinotracheitis (Bovilis IBR marker live<sup>®</sup>).

University  
of Glasgow | Scottish Centre for Production  
Animal Health & Food Safety

We would like to thank once more Neill family at Rossiebank for the great working and personal relationship established over the years and we would be more than happy to answer any further questions on herd health and production with prospective buyers.

## FOREWORD

The Neill family originated from Moss-Side Farm in Tarbolton, Ayrshire and made the move to Rossiebank Farm in 1932 where they have been dairy farming ever since. **ROSSIEBANK** is one of the most recognised names in Scotland, renowned for quality stock whether Blue Leicester sheep, Highland ponies or Holstein cows. The very best genetics have been bred by the Neill family for almost a century now and this dispersal of the Rossiebank Holstein herd gives buyers the opportunity to purchase exceptional milking animals.

The original herd was pedigree Ayrshires that were developed into one of the only naturally polled herds in the UK. In the 70's these super uddered Ayrshires were bred to the best British Friesians and in the early 90's Holstein genetics were introduced.

Today the herd is averaging **8990kg 4.58% 3.58%** at the most recent herd test on the 28th February the herd averaged **29kgs** with an average cell count of 108. The sale is packed with wonderful milkers with **91 freshly calved in 2023**. The herd is all year round calving and is milked twice daily through a herringbone milking parlour and are cubicle housed during the winter. All the feeding is done via a Total Mixed Ration with the main ingredients being quality grass silage, potatoes and maize meal.

The sale comprises **143 heifers in milk, 96 second lactation, 79 third lactation, 45 fourth lactation and 42 having five or more calvings**. The Rossiebank cows immediately impresses they display tremendous width of chest and rump combined with strong feet and legs and excellent quality of mammary. They are moderate in stature and are in excellent body condition.

The herd uses the World Wide Sires mating programme, the younger portion of the herd are sired by **KING DOC, BRENNAN, FLAGSHIP, PHARO, CAMDEN & HURRICANE**. The service sires used are the best sexed sires from World Wide Sires or an easy calving British Blue.

### Health Status

Please see vets letter for full details.

We highly recommend the Rossiebank dispersal sale to all milk producers. The quality on offer is super high and I am confident the Rossiebank cows will perform exceptionally well in all modern milking systems. This sale ticks all the necessary boxes that serious buyers demand they have **high quality production, excellent health status, potent fertility and valuable genetics!**

The Neill family and the H&H team look forward to welcoming you to Borderway on the 22nd March

**Glyn Lucas Auctioneer**

## Your Complete Veterinary Solution

Our 15 dedicated farm vets have over 200 years of experience between them, giving us both a wide knowledge base and a range of specific skills and interests across all areas of farm practice.

We provide support from our two branches in Stirling and Lanark 24 hours a day, 365 days a year, and a member of our team will always be available to come out to your farm out of hours.

**01555 660000**

# Lintec

**The unique feed to improve production,  
health and fertility.**

The benefits of omega 3 all year round.

Lintec is a specific variety of linseed, high in Omega-3 fatty acids, that has been specially processed to produce a unique feed for dairy cows. It is a sustainable high quality feed, suitable for all dairy production systems.

For more information contact your local account manager or call:

As suppliers to Graham's the Family Dairy for over 20 years, the Neill family produced milk of exceptional quality.

From our family to yours, as friends we would like to wish the Neill family all the very best for the future.

The Graham's family.

The logo for Graham's the family dairy, featuring the word "Graham's" in a large, stylized, cursive font above the words "the family dairy" in a smaller, sans-serif font.

**HEALTH AND SAFETY RULES  
HARRISON & HETHERINGTON LIMITED  
NOTICE TO ALL VISITORS AND TRADERS  
PLEASE READ AND OBSERVE  
THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

**AUCTIONEER'S TERMS & CONDITIONS OF SALE**

(Incorporating the Auctioneer's  
Terms and Conditions )

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
