FOREWORD

The Shorne British Friesian herd was established by Richard's father in the 1970's with only four cows. The herd gradually increased in size with Richard taking over the management of the herd in the 90's. 20 years ago, herd numbers increased with the purchase of a productive British Friesian herd from Edinburgh and since then the herd has been 100% home bred.

The Boyd family moved to Alton Farm in Drummole on the west coast of Scotland in 2024 and the transition has been challenging. Trying to incorporate building and farming and milking cows has left its toll combined with the inability to rent extra land to make winter forage the difficult decision has been taken to sell the entire pedigree herd.

The herd was renowned for its production and fertility averaging 7256kgs 4.4% 3.53% with a 379 Calving Interval prior to the move to Alton Farm. Production is now running at 5872kgs @ 4.27% 3.41% due to the lack of grazing and forage, it is worth noting that these cows will and can produce large volumes of milk if given the opportunity to do so.

The sale comprises 20 freshly calved cows and heifers followed by 161 dry and late lactation cows and heifers all due to the Hereford. One of the BIG ATTRACTIONS in this sale must be the calving cows with 40 due in 2025 and 110 due in February and March. The Hereford calves that have sold recently at Borderway from the Shorne cows have sold exceptionally well up to £590 to average £465 as have the cast cows that have not been in calf with several selling for over £2000 to average £1572.

Currently there are 106 Excellent, Very Good & Good Plus classified cows with a large majority of the Shorne cows milking for 10 lactations and producing massive lifetime yields. For example Shorne Cameo 48 EX92 milked for 10 lactation producing over 70 ton of milk. She has 13 direct descendants selling including a direct daughter sired by Deangate Quaich (Lot 88) who is classified VG89 and is due in February plus and another daughter by Goonhilly Seb (Lot 119) who is due in March with her second.

Another fine example of this outstanding longevity and incredible lifetime production is from a herd favourite, Shorne Mia EX92 3E who was sired by Mr Frosty. She produced over 90 ton in her 9 lactations topping at over 10500kgs as a seven year old cow. Her daughter sired by Goonhilly Samson sells (Lot 94)

The heifers selling in this important sale are all sired by proven sires including Beaufort Milkman, Catlane Chad, Englishcombe Carousel, Gemini Norseman, Goonhilly Seb, Goonhilly Samson, Lakemead Jingle Many of these heifers come with high PLI Indexs such as Shorne Liz 88, with a PLI of +£270, she is a August born daughter of Inch Land bred from a high butterfat and protein dam. (Lot 232)

Although the herd is not currently performing to its full potential due to the lack of forage I am confident that they will go and do well in their new homes. Most of the cows are selling at an ideal time for this transition being either dry or late lactation and will exceed all expectations once they are freshly calved.

Herd Health

The heifers are all BVD tag tested and their dams were vaccinated for BVD. All the dams are tested free of Johnes. The farm is in a four year TB testing area.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
