M REID & SONS, DOCKENFLAT FARM, WATERBECK, LOCKERBIE**TB4. IBR & BVD vaccinated. BVD tested. Johnes's tested**

The Holstein herd at DOCKENFLAT Farm just south of Lockerbie is well known for its ability to produce large volumes of milk. At present the sheds at Dockenflat are running at capacity so the decision has been made to reduce stock number resulting in this excellent opportunity for you to purchase high-end cattle.

Currently the herd is averaging 12503kgs at 4.1% butterfat and 3.4% protein. They are medium in stature and have tremendous width of rump and chest. The structure of the feet and legs is ideal and the udder quality throughout the herd is to the highest of standards.

The herd has been bred using the GENUS mating programme for many years and the results speak for themselves. We highly recommend this special consignment and are confident they will perform in your dairy farm.

Herd Health

The Dockenflat herd is vaccinated for IBR & BVD and are tested free of BVD. They are tested for Johnes each quarter and are a low risk herd. The farm is situated in a four year TB testing area and there has never been TB in the herd.

NOTICE TO PURCHASERS

Business trading terms and settlement of purchases

Payment due on Day of Purchase

Interest chargeable from date of purchase at 7.25%

over Clydesdale Bank base rate at the time, for accounts in default

Purchases shall be governed by and construed in accordance with the law in England and Scotland

Accepted form of payments

direct bank transfer; debit card; cheque - known customers only; bankers draft

2% surcharge will apply to Business Credit Card payments

If payment is made by credit card, it must be linked to a business bank account

New customers and or agents wishing to purchase on behalf of another party must contact the company's main office at Carlisle at least 48 hours prior to sale, to provide full details and references for authorisation

Please note that all lots/items must be settled on the day of purchase and prior to clearance of any stock

For the avoidance of doubt H&H reserve the right to contra or keep sale proceeds to offset against an outstanding account

Sale Conditions

- Sold under the conditions of sale as displayed in the mart recommended by the Livestock Auctioneers Association for England and Wales
- Please ensure all paperwork is handed into the office at least 1 hour before the animals enter the sale ring
- All cattle must be double tagged with Ministry approved tags and information supplied on the respective entry forms
- It is the responsibility of the buyer to ensure that any animals destined for the food chain are out with any withdrawal period. This includes antibiotics and anthelmintics that the seller may have given prior to sale.
- Payment will only be made to the exhibitor.
- No lots can leave the market without a pass slip being issued by the main office
- **TB Testing:** All cattle over the age of 41days moving out of yearly testing herds must be pre-movement tested within 60 days prior to the sale. The yearly TB testing interval of the herd consignment will be provided on the display board at the point of sale. The yearly testing interval will be signified by the numbers 1 or 4. The information is given for guidance only, Harrison & Hetherington Ltd accept no responsibility for any consequences of such information
- All purchasers have two working days from the time of sale to satisfy themselves that all documentation received is correct and any discrepancies must be notified to the auctioneers within the time limit
- **No cow or heifer in the last 10% of pregnancy (approximately 27 days), or that has given birth in the last week, are considered not fit for transport, and are also unfit for presentation at a market.**

UDDER WARRANTY - Unless otherwise stated or announced, any cow or heifer in-milk at the time of the sale shall carry a Vendors Warranty that she is correct in udder and teats at the time of sale. Any claim under this warranty must be notified to the Auctioneers within one hour of the close of the sale, which can be submitted on an oral basis. If the auctioneers are satisfied that the udder is not correct in all respects, and does not comply with the warranty given, the sale of the animal can be cancelled.

AGRI-KING

A GAME CHANGER IN MYCOTOXIN MANAGEMENT

- ✓ Contains proprietary formulated substances to help livestock deal with challenging feeds
- ✓ Manages toxins to improve fertility and performance
- ✓ Contains a unique live probiotic bacteria to improve health and production
- ✓ Also contains antioxidants, vitamins and trace elements
