FOREWORD

Welcome to our 5th on farm sale of our UltiMate maternal, wool shedding genetics. I am the 3rd generation to farm at Bankhouse here in the Scottish Borders, on an upland grass farm. Managing and producing stock to be productive, efficient and profitable genetics has been our objective.

The UltiMate has been produced over a 19 year period with the selection of maternal lines. With the ability to lamb unassisted, scanning at 180%, having low lamb mortality and being produced and finished on a forage based diet. Ewes capable of producing her own body weight in 100 days or less and lambs finished within the same calendar year, meeting market specification.

Our stock are fully Signet recorded and we are currently one of the few maternal breeds to use CT scanning as part of our overall evaluation.

I look forward to meeting you at or before the sale

5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
