**CONDITIONS OF SALE:** Held subject to the rules and regulations of the Livestock Auctioneers Association General Conditions of Sale.

**VETERINARY INSPECTION:** For buyers convenience, a Veterinary Inspection will be carried out on all animals entered for the sale. The Veterinary Officer will examine for general health and genetic defects particularly teeth, eyes, testicles and warts. Any animal found with a genetic fault, disease or disorder will be REJECTED.

All cattle entered for the Sale will have their identification marks examined. Any marks found to have faulty, incorrect or illegible marks will be REJECTED from the Sale, Vendors are therefore urged in their own interest to examine the ear tags of sale cattle before the animal(s) leave the farm, so that faulty marks can be rectified in accordance with the required Society procedures.

All Bulls entered for the Sale, must be adequately trained to lead by halter and must be paraded for inspection unless exempted by the Stewards. Evidence of faults of temperament, vices, etc, may lead to disqualification.

**METHOD OF SALE:** All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

**COMMISSIONS:** The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

**INSURANCE:** A representative of the Auctioneers Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

**REGISTRATIONS:** All stock in the Sale are registered with the British Limousin Cattle Society, Tel. 02476 696500).

**PEDIGREE TRANSFERS:** Any purchaser who is a member of the British Limousin Cattle Society (BLCS) must return the pedigree certificate to the BLCS office and request a transfer of ownership. All transfer fees will be paid by the vendor

**SETTLEMENT AND CLEARANCE OF STOCK:** Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

**RESERVE PRICES:** Vendors shall have the right to refuse to accept the final bid for their animals. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price.

All pedigree animals will be sold in guineas (105 pence) and a commission of 5% will be charged by the Auctioneers on all sales. No animal may be sold privately before being passed through the auction ring and FULL COMMISSION will be charged on the sale of any animal sold by private treaty after the auction. **COWIN SALVATION** is a big upstanding bull with plenty of natural power. **Salvation** descends from a cow family that consistently breeds very well with abundance of milk. The Cowin herd won the best overall herd and overall best youngstock awards for the South Wales and the Mid-West Limousin Club herd competition in 2022.

## Major Reduction of the CALOGALE HERD

The CALOGALE herd was established in 2010 with the purchase of **Lourie Dazzle** (Red Ladies Derby Reserve Female Champion), **Baileys Countess**, **Trueman Florence** and **Goldies Glorious**. Numbers have grown significantly over the years and now with family commitments and alternative business interests taking priority, we have taken the difficult decision to significantly reduce numbers to a manageable level. Over the next twelve months we will sell approximately twenty females right from the heart of our small herd. Our six entries for this sale include cows and heifers from some of our most proven and prolific bloodlines.

Our focus has always been to breed females of the highest quality and, until now, our policy has been to retain the best females for breeding within the herd. Our two current stock bulls (**Bernish Memphis** and **Meadowrig Pedro**) were selected with strong female lines in mind and we are absolutely delighted with the progeny from both bulls to date.

Herd highlights in the show ring include winning the RWAS Interbreed Exhibitor Bred Group of Three Championship in 2018, RWAS Male Champion and Reserve Overall Champion in 2019, Fitzhugh Pairs Reserve Interbreed Champion 2019, RWAS Junior Female Champion and RWAS Females of the Future Pairs Interbreed Championship in 2022.

Sale ring highlights to date include winning two Senior Male Championships in Carlisle in 2019 and 2022, **Calogale Ninja** and **Calogale Oxide** selling for 9,000gns and 12,000gns in 2019, **Calogale Righteous**, **Calogale Slimshadey** and **Calogale Skye** making 10,500gns, 8000gns and 8000gns in 2022; and our first **Meadowrig Pedro** Son, **Calogale Sykes** selling for 11,000gns in Carlisle earlier this year.

Other achievements include winning numerous first prize plaques in the annual South Wales and Mid West Herd Competition and Stars of the Future Competition. The Calogale Herd has consistently won its category in the annual herd competition over a number of years and we were awarded the Best Overall Herd in 2021.

We wish all prospective purchasers the very best of luck and we genuinely believe the females available will go on to breed exceptionally well.

We would like to thank all the staff at Welshpool Livestock Market and Harrison & Hetherington for their help and support in the build up to this sale. A very big and very special thank you must also go to our dear friend Mr Richard Evans who has spent many hours over the years preparing and exhibiting our cattle at shows and sales - "we couldn't have done it without you Rich, thank you".

### Herd Health

- The Calogale herd has been a member of the HiHealth Herdcare Cattle Health Scheme (CHECS) since 2013. The most recent health check was completed in December 2022.
- Johne's risk level 1 since 2013
- BVD accredited free since 2016
- We have never had a case of TB on the farm and all animals have been pre-movement tested prior to the sale. Our last whole herd test was completed in December 2022.

**HOMEBYRES JELOSSIE** is a huge cow and was purchased at the Homebyres dispersal sale for 7800gns where auctioneer James Little described her as his pick of the yard. She is a complete outcross, a double F94L gene carrier and has an abundance of milk (Milk EBV in the Top 1% of the Breed). She is a tremendously fertile cow and has been flushed successfully a number of times with 34 embryos being retained in storage. **Jelossie's** calf that was purchased at-foot (**Homebyres Pelossie**) was sold privately for £7,000 and her most recent calf is a tremendous **Meadowrig Pedro** son that will feature in our 2023 show team. **Jelossie** is sold in-calf to **Meadowrig Pedro** who's progeny to date have sold to 30,000gns, 18,000gns and 11,000gns; **Jelossie** will make a tremendous brood cow in any herd.

**This female has been flushed 2 times, 30 embryos have been collected of which 29 remain frozen.**

**CALOGALE MAIZEY** is a shapely cow out of our foundation female **Lourie Dazzle** who stood Reserve Female Champion at the Red Ladies Derby 2010. She is sired by **Objat** and carries two copies of the F94L 'profit gene' and an EBV in the top 1% of the breed. **Maizey** underwent a C-Section for her first calf due to it being presented backwards and upside down, however she has subsequently calved naturally on all occasions. **Maizey's** first son sold privately off-farm for an undisclosed sum, her first daughter sold privately for £5000 at 11 months of age and her second daughter, **Calogale Snazzy** by **Meadowrig Pedro** is offered in this sale. **Maizey** and her daughter are both highly recommended to prospective purchasers looking to breed progeny with width and muscle

 Has been PD'd in calf.

**CALOGALE SCRUMPTIOUS** is a very promising **Goldies Glorious** daughter who has bred exceptionally well for the Calogale herd. **Glorious's** progeny have won numerous first prize individual herd competition categories in the South Wales and Mid West Herd Competition (**Calogale Luscious**, **Calogale Supremacy**, **Calogale Opus**) and sons have sold 10,500gns (**Calogale Righteous**, Senior Male Champion Carlisle February 2022). Another son (**Calogale Lionheart**) topped Newark sale in 2017. **Scrumptious** is an embryo calf by the renowned **Ampertaine Foreman** and carries both F94L and Q204X myostatins. She stood third in the annual Herd Competition heifer category and we firmly believe she will go on to breed as consistently as her mother. She is PD'd in-calf to the exceptionally easy calving **Bernish Memphis** who's progeny have sold to 10,500gns to date.

**CALOGALE SNAZZY** is a super stylish **Meadowrig Pedro** daughter that we're very reluctant to let go of. She is a double F94L gene carrier and has a Beef Value EBV well into the top 1% of the breed. Her half-sisters topped the Dinmore Production Sale 2022 selling for 30,000gns and 18,000gns. She is offered for sale PD'd in-calf to the exceptionally easy calving **Bernish Memphis** who has sired bulls to 10,500gns. We are very excited to see the off spring from this mating which we are confident will please the purchaser of this tremendous offering.

**CALOGALE SCHWAWZER** is a big, strong powerful heifer that is Gareth's pick of the 'S' reg heifers. She descends from the **Lourie Dazzle** line (Reserve Female Champion Red Ladies Derby 2010) which has proven to be very successful for us and is by **Meadowrig Pedro** who has sired daughters to 30,000gns. **Calogale Nzambi** (*dam*) is a full sister to **Calogale Izzy** who won numerous Breed and Interbreed Championships at Local and Regional level. **Schwawzer** is a double F94L gene carrier with a Beef Value EBV just short of the top 1% of the Breed. She is a very exciting prospect and is highly recommended to prospective purchasers.

\* Where animals have been genotyped, the breeding values for these traits will be Genomic Breeding Values (GEBVs). Publication of GEBVs is at animal owners' discretion. If an animal has not been genotyped, the breeding value will be a conventional Estimated Breeding Value (EBV). Whether a breeding value is an EBV or a GEBV is noted alongside each value.

Please note that EBVs and GEBVs are interchangeable for the same trait. For example, an animal with a Calving Interval GEBV can be directly compared to an animal with a Calving Interval EBV. A link to further information on all EBVs and GEBVs is below.

## FOR INFORMATION

### Breeding Indexes

EBVs can be combined in to selection indexes to meet wider breeding objectives...

<b>Calving Value</b>	An economic indicator of the collective value of Gestation Length and Calving Ease
<b>Beef Value</b>	An economic indicator of the collective value of Birth Weight, Calving Ease, 400-Day Growth, Muscle Depth and Backfat Depth
<b>Retail Value</b>	An economic indicator of the collective value of Fillet, Striploin, Rump, Topside, Silverside and Knuckle at 600 days of age and a standard carcass weight of 350kgs.

### NB: Using Calving Ease and Maternal Calving Ease

**Calving Ease EBV** *Predicts how easy a bull's own calves will be born.*

**Maternal Calving Ease EBV** *Predicts how easily a bull's daughters will calve.*

To search the Limousin database by Breeder, by EBVs/GEBVs and/or by Individual Animal go to [www.taurusdata.co.uk](http://www.taurusdata.co.uk) and click on 'Beef Search'

For more information on EBVs and GEBVs please go to [www.limousin.co.uk](http://www.limousin.co.uk) and click on 'Performance Programmes' or get in touch on the numbers below.

## HOW TO USE GENETIC INFORMATION IN THIS CATALOGUE

Sale catalogues contain specific information relating to the genetics of each animal. This is a short explanatory note to assist when selection decisions are being made.

## 1 Birth Type

‘Got by AI’ indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. ‘Natural calf’ indicates the calf was born to its biological dam. ‘ET calf’ indicates the calf was born as a result of embryo transplant.

## 2 Myostatin

“Not tested” indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website [www.limousin.co.uk](http://www.limousin.co.uk), search in ‘performance programmes’. In summary:

### The Variants:

<b>F94L</b>	Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with <b>no</b> associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.
<b>NT821</b>	Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings. If animals are ‘heterozygous’ with F94L (ie F94L/nt821) they will still exhibit quality carcase characteristics but are less likely to be affected by more difficult calvings.
<b>Q204X</b>	Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are ‘heterozygous’ with F94L (ie F94L/Q204X) will still exhibit quality carcase characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

### The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield** – by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** – increased tenderness, reduced fat content, higher polyunsaturated fats

## Using Myostatin information

**An important factor to remember is that carcass traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is not an absolute predictor of an animal's performance.**

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herdmates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

### 3 Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Hom.) Where the alleles are different (because there is more than one variant of the gene, the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" – animals will be red and will pass on red genes.

"Hom. Black" – animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" – animals will be black and will pass on either a red or black gene.

"Het. Red" – animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

### 4 Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" – will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" – will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to [www.limousin.co.uk](http://www.limousin.co.uk), search in 'performance programmes' or scan the QR code above.

## 5 Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

a) In sale catalogues, **Breed Average** for each trait is represented by the vertical line that is central on the bar chart...

- ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
- ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.

b) Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time.

c) The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to [www.limousin.co.uk](http://www.limousin.co.uk) and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

**EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...**

**Step 1:** Go to [www.taurusdata.co.uk](http://www.taurusdata.co.uk)

**Step 2:** In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

## 6 Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

For further information or if you have any query, please let us know - telephone 02476 696500, e-mail [info@limousin.co.uk](mailto:info@limousin.co.uk) or speak to Society staff and Council members attending the sale.

# Sell Live and Thrive Under the Hammer

The WLS team conduct weekly Monday sales of prime lambs, prime cattle, cull ewes and cull cows, as well as seasonal store sheep sales including store lambs, couples and breeding ewes. With fortnightly sales of cows and calves and store cattle the market attracts buyers from all over the country, annually selling in excess of 500,000 sheep and 10,000 cattle.

The team holds several large collective machinery sales based on the Welshpool Livestock site, ideally situated for both vendors and purchasers. It offers customers an excellent, modern sales facility for items from chainsaws to tractors, including the provision of online bidding platforms to maximise saleability for larger items.

WLS is now the base for Morris Marshall & Poole with Norman Lloyd's dedicated rural and agricultural hub combining the expertise of the two companies. The rural team provides specialist agricultural services, including rural property and farmland valuations, farm and livestock sales and government subsidy services

The WLS conference and meeting centre provides facilities that have the ability to cater for 1 to 150 delegates to suit a range of requirements. Whether you are looking to host a corporate event, business meeting or conference, we have flexible facilities to suit all occasions with complimentary Wi-Fi, large scale onsite parking and disabled access.

## **Herd Health at British Limousin Cattle Society (BLCS) Collective Sales**

### **Introduction**

Herd health rules were introduced by the BLCS at nominated premier Collective Society Sales and these are now in place at all premier BLCS Collective Sales (Stirling February & October; Carlisle February, May, October & December; Brecon May & November).

The principal aim is to standardise herd health declarations and information presented in order to provide both members and customers alike with clear, accurate herd health information at the point of sale and within the given sale catalogue. As such it is attractive and informative for customers and aims to further raise the level of buyer confidence.

BLCS Herd Health Rules have two principal elements:

Part 1. Herds selling at the premier Collective Society Sales have to be members of, and adhering to, the terms of a CHeCS approved Herd Health Scheme. At a minimum, this must include a whole herd test for Johne's disease.

Part 2. All animals male and female, including calves at foot, presented at the premier Collective Society Sales be EITHER from a BVD Accredited Herd within a CHeCS approved Herd Health Scheme OR to have been BVD tested virus free. All animals forward will be required to be BVD vaccinated prior to sale with an approved vaccine. Pregnant animals must have had testing and vaccination completed prior to service. Vaccination of calves at foot to be in accordance with CHeCS guidelines and recommendations.

### **Herd Health Declaration**

The sale entry form is accompanied by a Herd Health Declaration form asking vendors questions regarding for example: TB status; membership of CHeCS ([www.checs.co.uk](http://www.checs.co.uk)) health schemes (AFBI Cattle Health Scheme, HiHealth Herdcare (Biobest), & Premium Cattle Health Scheme (SRUC) and Johne's, BVD, IBR and Lepto status. On line entries also require the Herd Health Declaration form to be completed.

Is the Herd Health Declaration compulsory?

The Herd Health Declaration is compulsory at all Premier Collective Sales. For reasons of clarity and to provide purchasers with the most accurate information available, vendors are required to complete this at time of entry.

Although not compulsory at other collective sales (Newark in April & Ballymena, Dungannon, Thainstone & Stirling in May), the Society recommends that vendors complete the Herd Health Declaration. This information then appears in the Vendors' Index within the catalogue. Where a member has chosen not to complete the Herd Health Declaration, it will simply say 'No Herd Health Declaration'.

What Other Health Information may be displayed?

It should be noted that the Herd Health information provided in the catalogue relates to whole herd status. Information relating to specific animals entered in the sale should be requested from the vendor.

Vendors are encouraged to apply to their respective CHeCS health scheme for individual animal health cards for display on pens. For an individual animal's test results, or vaccination histories, regarding BVD, IBR, Lepto or Johne's, these are permitted above the sale pens only upon presentation of a signed veterinary declaration to verify that the animal concerned has had a clear test.

Again, for reasons of practicality, no health information notes are to be put in the catalogue footnotes by vendors. Similarly, the Society has requested that no declarations on health information be given by the auctioneer during the sale. Again, the sole purpose of this is to avoid confusion and to try and ensure that the information provided is done accurately, fairly and in a standardised format in the catalogue. This point has been agreed with the auctioneers.

#### Johne's Risk Levels

The Herd Health Declaration includes a section where breeders are able to indicate their Johne's Risk Level, once known.

It is a condition of BLCS Premier Collective Sales that animals from herds that are Johnes Risk Level 5 are not permitted to be sold.

Should you have any queries regarding the new Johne's Risk Level classification, please contact your respective CHeCS health scheme.

What if a vendor is selling an animal/s that he did not breed?

Vendors are still requested to fill in the Herd Health Sale Declaration accordingly. Prospective customers are advised to speak to vendors directly to acquire accurate health information on animals offered but not bred by the seller.

#### Feedback & more information

The Society welcomes members' and customers' feedback on the Herd Health Declarations and health policy at sales. If you have further questions, please speak to the Society representative, Iain Kerr or the Auctioneers.

## AUCTIONEER'S TERMS & CONDITIONS OF SALE

### (Incorporating the Auctioneer's Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Live-stock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.

# Sell Live and Thrive Under the Hammer

The WLS team conduct weekly Monday sales of prime lambs, prime cattle, cull ewes and cull cows, as well as seasonal store sheep sales including store lambs, couples and breeding ewes. With fortnightly sales of cows and calves and store cattle the market attracts buyers from all over the country, annually selling in excess of 500,000 sheep and 10,000 cattle.

The team holds several large collective machinery sales based on the Welshpool Livestock site, ideally situated for both vendors and purchasers. It offers customers an excellent, modern sales facility for items from chainsaws to tractors, including the provision of online bidding platforms to maximise saleability for larger items.

WLS is now the base for Morris Marshall & Poole with Norman Lloyd's dedicated rural and agricultural hub combining the expertise of the two companies. The rural team provides specialist agricultural services, including rural property and farmland valuations, farm and livestock sales and government subsidy services

The WLS conference and meeting centre provides facilities that have the ability to cater for 1 to 150 delegates to suit a range of requirements. Whether you are looking to host a corporate event, business meeting or conference, we have flexible facilities to suit all occasions with complimentary Wi-Fi, large scale onsite parking and disabled access.
