## General Information & Sale Notes

**LOCATION:** The sale will be held at Welshpool Livestock Market, Buttington, Welshpool. SY21 8SR.

**VIEWING:** The Sale Cattle will be available for viewing at Welshpool Livestock Market on Friday 17th June between 3pm-6pm and on the morning of the sale. Viewing on farm is welcomed by appointment with the vendor.

**CONDITIONS OF SALE:** All animals are sold under British Limousin Cattle Society auction rules and conditions of sale drawn up by the N.B.A. These entries will be sold subject to these rules along with the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. conditions of sale shall prevail.

**METHOD OF SALE:** All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

**COMMISSIONS:** The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

**INSURANCE:** A representative of the Auctioneers Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

**REGISTRATIONS:** All stock in the Sale are registered with the British Limousin Cattle Society (Tel. 02476 696500) unless otherwise stated.

**PEDIGREE TRANSFERS:** Any purchaser who is a member of the British Limousin Cattle Society (BLCS) must return the pedigree certificate to the BLCS office and request a transfer of ownership. All transfer fees will be paid by the vendor

**SETTLEMENT AND CLEARANCE OF STOCK:** Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

**RESERVE PRICES:** Vendors shall have the right to refuse to accept the final bid for their animals. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price.

All pedigree animals will be sold in guineas (105 pence) and a commission of 5% will be charged by the Auctioneers on all sales. No animal may be sold privately before being passed through the auction ring

**FULL COMMISSION** will be charged on the sale of any animal sold by private treaty after the auction. All such transactions MUST BE PASSED THROUGH THE AUCTIONEERS OFFICE.

**SEMEN ROYALTY SCHEME BULL REGISTER:** Purchasers are asked to note that where a female is catalogued as being served/inseminated by a "Semen Royalty" Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

### SETTLEMENT & CLEARANCE OF STOCK

## WINNINGTON HERD

The Winnington Herd was established in 1981. We are a closed herd apart from bringing in proven stock bulls sourced from both the UK and France representing new bloodlines into the herd. We have been conscious of keeping milk, growth and temperament within the herd and difficult calving's out as our main priorities, as is herd health. We joined SAC health scheme in 2006 clear and have been fortunate to remain clear for Johne's and BVD. We routinely vaccinate for BVD.

This will be our second reduction sale the first being back in 2011 but now with numbers beyond what we ideally want. We have made the sale as genuine as possible by putting in all spring calved cows and heifers representing our best bloodlines. On the cows and heifer's side stock bulls predominantly featuring are Nebulon, Titanic and Haricot with calves at foot being predominantly by Mereside Hallmark and a few by Sibbersfield Pagan. The heifer's calves at foot are by Beulah Nutella.

Over the years we have gained satisfaction that our females have been sold into newly formed and established herds and gone on to do well for them.

Our cattle are reared and fed commercially providing prospective purchasers the opportunity to buy genuine cattle which will hopefully go on and do well wherever they go.

All calves will be DNA tested to confirm their sire.

We would like to thank everyone who has helped us prepare for the sale.

**Neil Vance**

---

**Reference to Sires:****HARICOT**

Sire of most of the heifers and some of the cows in the sale.

**SIBBERSFIELD PAGEN**

Sire of some of the calves at foot.

**TITANIC**

Sire of some of the cows in the sale.

**MERESIDE HALLMARK**

Sire of the majority of the cow's calves at foot.

SALTbrook ROCKY is ready for work

## ASHLEDGE HERD

We have forward 8 heifers for sale due to us loosing some of our summer grazing. These heifers come from some well established cow families in the herd.

Their sires are all currently doing a great job here for us.

**Haltcliffe Iceman** is a bull who has left a great impression on our stock himself featuring highly numerous times in the regional herd competition. His progeny has gone on well having bred champions and top price animals on many occasion.

**Tomschoice Oblivion** was purchased privately for his birth weight, gestation length and milk figures. Oblivion is a bull we use regularly on our heifers.

**Ashledge Ontario** is a home bred bull who we really rate his first son to be sold was reserve champion in Brecon.

**Goldies Lookout** is a bull which consistently throws length and growth. He himself being a big powerful bull.

Ashledge herd is a member of the SAC health scheme,

- Johnes level 2,
- Accredited for BVD,
- Heifers are vaccinated for BVD using the Bovella vaccine.
- Heifers are also Bravoxin 10 vaccinated (double dose) in their first 12 months and yet to be given this years.

Thank you for your interest, thank you to all involved for their help.

Best of luck with your purchases

## **GARYVAUGHAN HERD**

Garyvaughan Limousins were established in 2000 with the registration of twin heifer calves **Garyvaughan Rossete** and **Garyvaughan Relish** which has influenced the herd right up to the present day with Lots 88, 89 and 91 to name a few.

We have made the difficult decision to reduce our numbers due to losing 100 acres of rented land.

At the present time we have 330 pure bred Limousins of which every female is home bred. From the beginning we made the decision to focus on natural service by purchasing a stock bull of the type we liked, therefore from the beginning we were able to choose our next bull with the traits to hopefully take us to the next level of progression and where we are today.

Our present stock bulls are **Stratearnred Nidge**, **Barrons Oslo**, **Gorrycam Phantom** and **Maraiscote Reagan**.

Stratearnred Nidge was judged best stock bull & progeny in the NWM & NW herd competition 2021 with several of his daughters included in our sale. He has bred sons to 10,000gns for **Garyvaughan Roy** sold Welshpool May 2022.

All entries will be individually Johnes tested prior to the sale to ensure buyers confidence.

# Alphabetical Bull Index

(All bulls marked \* in the pedigrees are included in the reference)

**ATTILA (36-15-076-572)** sire – Pacha, dam – Orgie (by Mammouth). Imported as a yearling calf from France in Sept 2006 from the Patureau Herd – breeders of a number of influential bull used today in the UK for example Jacot, Rossignol, Rocky, Requin (Bailea herd), Saphir (Hafodlas herd), Paul (Glangwen herd), Titan (Oddacres herd) and Vivaldi who are excelling in breeding cattle with exceptional shape. Attila's grandmother, Delicieuse, was also the grandmother of Requin, sire of Bailea Umandy. Attila to date has sired less than 50 pedigree and commercial calves and already they are making a name for themselves (although the majority of them are still under a year old). He is the sire of Poker Face who was out of a Belgian Blue cross Limousin cow and bred by Christopher Dick. She was sold to Melanie & Michael Alford at the Caledonian calf sale in September 2009 for £1500 (aged only 9 months). Poker Face has since done exceptionally well for the Alford's winning Baby Beef Champion at both the English Winter Fair and the Welsh Winter Fair in 2009, and Reserve Baby Beef Champion at the Scottish Winter Fair 2009. She was described by the judge at the Welsh Winter Fair as "a tremendous heifer, showy and stylish and hard to fault". Pedigree progeny includes Lodge Dapper 4,500gns Carlisle Oct 2009; Lodge Esquire sold privately aged 5 months old to the Littlewood Limousin Herd owned by the Barlow Brothers, Preston, Lancashire, Lodge Delgada 9,000gns Carlisle Feb 2010. Pictures of Attila and his progeny can be seen on website [www.lodgelimousin.co.uk](http://www.lodgelimousin.co.uk)

**BIAL (46-24-485-597)** sire – Nester, dam – Tatia (by Ionesco). Bial is noted for his easy of calving and excellent temperament chosen for his huge figures and excellent conformation. There is only a limited amount of semen available. Grand dam of Highlander bred Beech Lodge Rembrant, stock bull for the brims herd. Progeny includes Wilodge Jorel, Overall champion and top price of 6,000gns North West Midlands and North Wales Club sale 2015.

**BOLIDE (19-32-617-107)** sire – Neuf, dam – Unibelle (by Ionesco).

## 1 Birth Type

‘Got by AI’ indicates whether the calf was a result of an AI service. If blank, the dam was naturally served. ‘Natural calf’ indicates the calf was born to its biological dam. ‘ET calf’ indicates the calf was born as a result of embryo transplant.

## 2 Myostatin

‘Not tested’ indicates that no Myostatin test is currently available for the animal. Full details on the Myostatin variants and their effects on performance can be found on the Limousin Society website [www.limousin.co.uk](http://www.limousin.co.uk), search in ‘performance programmes’. In summary:

### The Variants:

<b>F94L</b>	Animals with two copies of this gene (ie F94L/F94L) exhibit an increase in muscling (by up to 19%) with <b>no</b> associated increased in calving difficulty, lowered fertility or longevity and by far the majority of animals in the breed carry this gene. Heterozygous animals (those with one copy of the gene) also exhibit these characteristics but not to the same degree.
<b>NT821</b>	Animals with two copies of the gene (ie nt821/nt821) will exhibit characteristics of larger loin depths, reduced fat depths and large, rounded rump and thighs. However, unlike F94L, animals with two copies may also have slightly heavier birth weights bringing with it the potential for more difficult calvings. If animals are ‘heterozygous’ with F94L (ie F94L/nt821) they will still exhibit quality carcass characteristics but are less likely to be affected by more difficult calvings.
<b>Q204X</b>	Animals with two copies of the gene (ie Q204X/Q204X) will exhibit characteristics of larger loin depth, reduced fat cover and greater meat tenderness. However, they may also have the potential to exhibit larger birth weight and, if females, slightly reduced milking ability. Animals that are ‘heterozygous’ with F94L (ie F94L/Q204X) will still exhibit quality carcass characteristics but are less likely to be affected by larger birth weights and reduced milking ability.

Two further variants of Myostatin exist in the population but are relatively uncommon in their occurrence. Known as nt419 and E291X, their effects are similar to nt821 and Q204X respectively.

### The recognised benefits of Myostatin are:

- ✓ **Increased Meat Yield** – by up to 19%.
- ✓ **More feed efficient**
- ✓ **Higher meat quality** – increased tenderness, reduced fat content, higher polyunsaturated fats

## Using Myostatin information

**An important factor to remember is that carcass traits (muscling, fat cover etc), calving traits and milk traits in cattle are controlled by MANY genes. Myostatin is only one of them and, as such, it is not an absolute predictor of an animal's performance.**

A Myostatin genotype is a further bit of information that may help your decision, but it should be used in conjunction with wider information such as Estimated Breeding Values (EBVs), which bring together information of actual performance from the animal itself, its herdmates and its relatives to predict genetic merit, and your own judgment on type and pedigree.

## 3 Genetic Colour

Colour and polled/horned genes typically come in pairs called alleles. One is inherited from the sire and one from the dam. Where an animal's alleles are the same, it is said to be 'Homozygous' (Hom.) Where the alleles are different (because there is more than one variant of the gene, the animal is said to be 'Heterozygous' (Het.)

"Hom. Red" – animals will be red and will pass on red genes.

"Hom. Black" – animals will be black and will pass on black genes. All calves will be black, since black colour genes are dominant.

"Het. Black" – animals will be black and will pass on either a red or black gene.

"Het. Red" – animals will be red and will pass on a red gene or a colour gene known as the 'wild type' that is non-colour determinate. (The coat colour of calves inheriting the wild type gene will be governed by the gene they inherit from the other parent. It is rare, but it is also possible for an animal to be homozygous for the wild type gene, in which case they will be reddish/brown to brownish/black).

## 4 Genetics for Horned/Polled Status

A bull that is "Hom. Polled" - will be polled himself and all calves will be polled (since he only has polled genes to pass on and they are dominant).

A bull that is "Het. Polled" – will be polled himself and will produce some polled and some horned calves (assuming the cows are all horned).

A bull that is "Hom. Horned" – will be horned himself and will pass only horned genes to his calves.

For more information on both Genetic Colour and Polled/Horned, go to [www.limousin.co.uk](http://www.limousin.co.uk), search in 'performance programmes' or scan the QR code above.

## 5 Estimated Breeding Values and Genomic Estimated Breeding Values (EBVs & GEBVs)

EBVs & GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average.

a) **In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart...**

- ✓ Bars that lie to the right of that line indicate EBVs/GEBVs that are above average. The further to the right they lie, the higher above Breed Average they are.
- ✓ Equally, bars that lie to the left of the line indicate EBVs/GEBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are.

b) Accuracy Values (Acc%) are expressed as a % and indicate the quantity and quality of records used to produce each EBV, GEBV or Index. The closer they are to 100%, the more accurate the EBV. Highly accurate values are less likely to change over time.

c) The numeric EBV & GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark which is updated annually.

For more information on EBVs and GEBVs, go to [www.limousin.co.uk](http://www.limousin.co.uk) and search under 'Breed Improvement' in the main menu or scan the QR code opposite.

**EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...**

**Step 1:** Go to [www.taurusdata.co.uk](http://www.taurusdata.co.uk)

**Step 2:** In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

## 6 Adjusted Weights

These are the 'raw' weights recorded for the animal throughout its early growing stages. They are adjusted for age, but are not adjusted for any other factor such as management, nutrition, dam age, differences between farms etc.

For further information or if you have any query, please let us know - telephone 02476 696500, e-mail [info@limousin.co.uk](mailto:info@limousin.co.uk) or speak to Society staff and Council members attending the sale.

\* Where animals have been genotyped, the breeding values for these traits will be Genomic Breeding Values (GEBVs). Publication of GEBVs is at animal owners' discretion. If an animal has not been genotyped, the breeding value will be a conventional Estimated Breeding Value (EBV). Whether a breeding value is an EBV or a GEBV is noted alongside each value.

Please note that EBVs and GEBVs are interchangeable for the same trait. For example, an animal with a Calving Interval GEBV can be directly compared to an animal with a Calving Interval EBV. A link to further information on all EBVs and GEBVs is below.

## FOR INFORMATION

### Breeding Indexes

EBVs can be combined in to selection indexes to meet wider breeding objectives...

<b>Calving Value</b>	An economic indicator of the collective value of Gestation Length and Calving Ease
<b>Beef Value</b>	An economic indicator of the collective value of Birth Weight, Calving Ease, 400-Day Growth, Muscle Depth and Backfat Depth
<b>Retail Value</b>	An economic indicator of the collective value of Fillet, Striploin, Rump, Topside, Silverside and Knuckle at 600 days of age and a standard carcass weight of 350kgs.

### NB: Using Calving Ease and Maternal Calving Ease

**Calving Ease EBV** *Predicts how easy a bull's own calves will be born.*

**Maternal Calving Ease EBV** *Predicts how easily a bull's daughters will calve.*

A collage of images showing various construction and industrial activities. The collage is composed of several hexagonal and rectangular frames. In the top left, two workers in blue and white uniforms are standing near a yellow bag. Next to them is a close-up of a brown paper coffee cup. To the right, there's a close-up of a red and silver metal structure. Below the coffee cup, a worker in a plaid shirt and yellow gloves is using a red and black power tool. In the center, a worker in a red safety vest is operating a large piece of machinery, possibly a welder, with bright sparks flying. To the right of that, a worker in a yellow safety vest is operating a red forklift. In the bottom left, a worker in a blue jacket is using a blue and black power tool. In the bottom right, a worker in a blue jacket is standing next to a large roll of material. The text 'OPEN TO ALL' is written in large, white, bold letters on a blue background in the center. The letters 'TG' are written in large, white, bold letters on blue backgrounds in the top right, bottom left, and bottom right corners.

## HEALTH AND SAFETY RULES HARRISON & HETHERINGTON LIMITED NOTICE TO ALL VISITORS AND TRADERS PLEASE READ AND OBSERVE THE FOLLOWING

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

## AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's  
Terms and Conditions )

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
